PRELIMINARY AMENDMENT

Honorable Assistant Commissioner
for Patents
Washington, D.C. 20231

Dear Sir:

Please amend the above-identified Continued Prosecution
Application as follows:

In the Claims:

1 ¹² 20. (Amended) [The communications apparatus as claimed in
2 claim 9,] Communications apparatus for use with an electricity
3 distribution and/or power transmission network for allowing, in
4 use, a low frequency high amplitude mains electricity power
5 signal to pass from the network to a consumer's premises and for
6 input and/or removal of a telecommunication signal from the
7 network, said communications apparatus comprising:
8 a main inductor arranged between a mains electricity input
9 from said network and a mains electricity output to said
10 consumer's premises to allow the low frequency high amplitude
